Michele A. Chadwick, iida

To Whom It May Concern:

CAS has worked on several Life Science projects with Rusciano Construction over the past few years. We have enjoyed our experience with their talented team. I was impressed with their ability to respond quickly and their attention to critical-path items. These are some of the key ingredients to making sure projects are completed on budget and on schedule.

We highly recommend Rusciano Construction and we look forward to our continuing involvement with their team.

Very truly yours,

CAS Architects, Inc.
